### About me

I am...

A loving father, dedicated worker, passionate designer, very motivated, self taught... person. I love living life and try to give it all I've got 110% of the time. I'm reliant on others for everything I cannot create, and I create that which others can't if it's in my abilities to do so, and if I can't, I'll either figure out how to, or find someone who can. I'm persistent to the end, and I even annoy myself with how hard I will give up on things. Take me as I am, but I'm willing to change if I'm not happy with who I am. If you think I'm too proud, I might just be, but I call it confidence, because I am extremely humble of who I am because of the work that it took to be the person I am... and I am proud darnit, because I'm OK--I always try to be better--but I'm OK, and that's a good thing.

But anyway, tell me about yourself, because I hate talking about myself.

### WORK EXPERIENCE

So I guess you would call this a resume, but I won't be that formal, so let's just call it past work experience. Pretty much just copied and pasted from my LinkedIn profile.

### SUMMARY

General Manager, Sales Director, Network Administrator, Technical Specialist, Lead Web Designer and Graphic Designer for C-Tech Solutions in Elkhart.

Founder and President, HS Enterprises LLC.

Building and maintaining computer hardware and software systems since 1995.
